

# VACCINES ARE LIFE-SAVING INNOVATIONS

**IMA** ILLINOIS  
MANUFACTURERS'  
ASSOCIATION

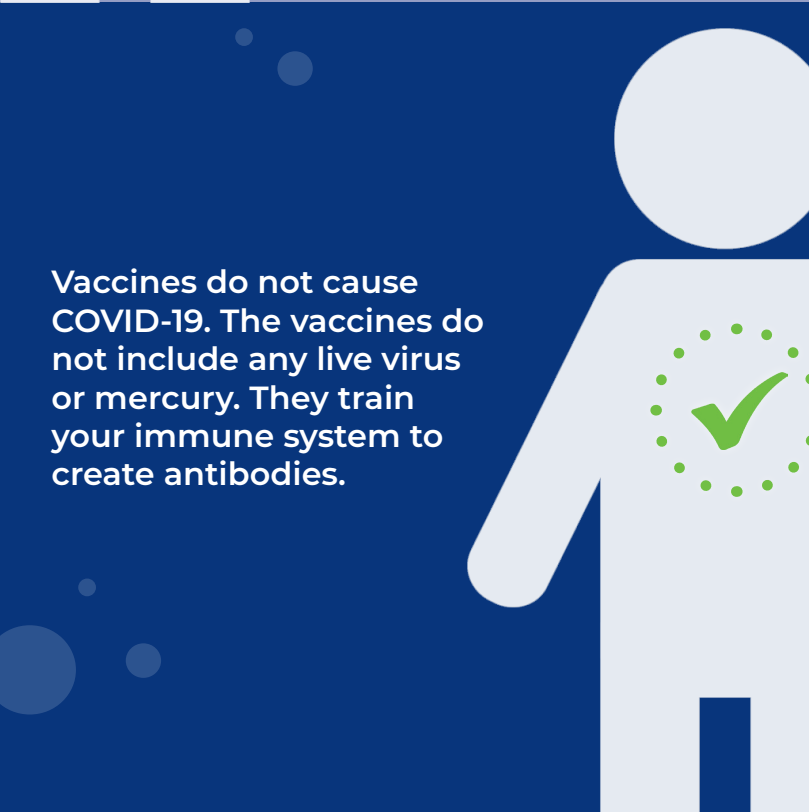

The United States has the safest and most effective vaccines in history.

Vaccines are simple, safe, and an effective way of saving lives.

Vaccines do not cause COVID-19. The vaccines do not include any live virus or mercury. They train your immune system to create antibodies.

Vaccines are tested and approved in three-phase clinical trials under oversight of the U.S. Food & Drug Administration (FDA) and the Centers for Disease Control & Prevention (CDC).

I feel **extreme confidence** in the safety and efficacy of this vaccine and I want to **encourage everyone who has the opportunity to get vaccinated** so that we have a veil of protection over this country, that would **end this pandemic.**" –Dr. Anthony Fauci
