

Leading the Way: Sustainable Aviation Fuel in Illinois

Thursday, March 21st Noon – 6:00 PM

Friday, March 22nd 8:00 AM – 4:00 PM

Doubletree by Hilton Lisle

PRESENTED BY

Join us for the inaugural Illinois Sustainable Aviation Fuel Conference, organized by key stakeholders in this space, for this discussion on the use of SAF in the U.S. and a chance to learn about unique opportunities this new initiative offers Illinois and the Midwest. In addition to great panels, we have two fantastic keynotes from leading Illinois officials.

Breaking News: Governor JB Pritzker is confirmed and will keynote an address on Friday morning of the conference.

United States Senator Tammy Duckworth, a leading proponent of Sustainable Aviation Fuel, will join in a fireside chat led by John Atkinson, chair of Intersect Illinois, to discuss Illinois' bright future in the industry.

This two-day event offers timely and valuable industry content, panels and keynotes addressing all aspects of SAF. Participants will network and learn from industry experts, agencies and public officials as we create a SAF ecosystem together after Illinois passed a first-in-the-nation tax incentive.

Experts and policy leaders will be highlighting the assets and resources that Illinois brings to SAF:

- Attracting jobs and investment
- SAF Demand & Logistics
- Federal & State Incentives
- SAF Producers
- Carbon Scoring
- Export Opportunities

and more!
