

IMA LEGISLATIVE REPORT CARD

IMA LEGISLATIVE RATINGS FOR 2025-26

ILLINOIS
MANUFACTURERS'
ASSOCIATION

BOLDLY MOVING MAKERS FORWARD

LEGISLATIVE OVERVIEW

Donovan Griffith

Executive VP &
Chief Strategy Officer

Each year, members of the Illinois General Assembly consider and vote on thousands of bills and amendments, many of which directly impact Illinois manufacturers and the broader business community. These votes matter because the policies enacted into law can have significant and lasting implications for the state's business climate, economic competitiveness, and ability to attract and retain jobs and investment.

It is critical that employers and their employees understand how their lawmakers vote on the key issues impacting jobs, investment, and economic growth. That is why the IMA is proud to present the IMA 2025-2026 Legislator Report Card, which provides a clear look at where lawmakers stand on issues important to Illinois' manufacturing economy. While legislators often talk about supporting jobs, economic growth, and investment, their voting records provide a more complete picture of whether their actions match their words.

The IMA Legislator Report Card highlights those who consistently support Illinois manufacturers and job creators while holding accountable those whose votes make it more difficult to do business, create jobs, and invest in Illinois. We hope this Report Card provides employers, employees, and voters with the information they need to better understand the actions of their state lawmakers and hold them accountable for the votes they cast in Springfield.

Elections have consequences. While companies compete in a national and global marketplace, the decisions made at the state level play a significant role in the success of businesses operating in Illinois. Tax policy, workplace regulations, environmental mandates, energy costs, and countless other state policies directly influence where manufacturers choose to invest and grow.

The IMA is proud to recognize lawmakers from both political parties who have demonstrated through their votes that they support Illinois manufacturers and the jobs they create. This election provides an opportunity for the MANUFACTURING MAJORITY to have their voices heard by supporting manufacturing champions.
